

Shinersoft
where ideas take birth

Who We Are

Shinersoft is a consulting firm providing support for clients with projects around EMR, EHR and Patient Portals Implementations/Optimizations, Meaningful Use Certification (CMS, Base EHR, CEHRT, MIPS) and value base care incentive programs. Our highly skilled healthcare technologists have strong implementation experience and many have hands on healthcare software development backgrounds. Whether you are looking to implement MU criteria's on a new EHR, optimize and implement what you have, or you need assistance with some specific set of MU criteria's.

Our organization has a flexible solution to meet your need. We have experience working with all MU criteria's on many different EHRs and patient portals so independent of which set of MU criteria's you are considering we have the resources readily available to assist with any need you might have

OUR PRODUCT

HOSPITAL MANAGEMENT SYSTEM

HMIS is a complete patient management, provider management, appointments, EMR, Supply chain, ICD9, ICD10, CPT, SOAP Notes, Referrals, Laboratory, Radiology and Patient portal Integration software for small to medium practices that helps to make small practice owner's management easier. HMIS provides paperless management of complete practice operations with lots of informative dash boards and much more. HMIS provides the management of different areas with reporting in different dimensions, that's helps management to manage things in a smooth way.

Project Life Cycle

- Delivering innovative & competent Internet & Intranet Solutions through our conceptual planning, resourceful development & efficient maintenance & support
- Round the clock
- Around the world

Ability to Scale

- Breadth and depth of technology
- Ability to hire, train and integrate hundreds of employees per year
- Ability to handle dedicated customer delivery centers
- Ability to ramp up to hundred employees with short span of time.
- Ability to handle customers globally with the same set of processes
- Global digitized delivery model as per quality standards

- Global digitized delivery model as per quality standards

Multi-Dimensional Strategy

- Leverage global presence to win large deals
- Partnerships & alliance approach for project wins
- Build and leverage assets to penetrate more customers
- Leverage US experience in global engagements
- Expand into new geographies
- Focus on emerging growth engines
- Continued customer satisfaction strategy to augment company growth

growth

- Continued customer satisfaction strategy to augment company growth

ELECTRONIC HEALTH RECORD

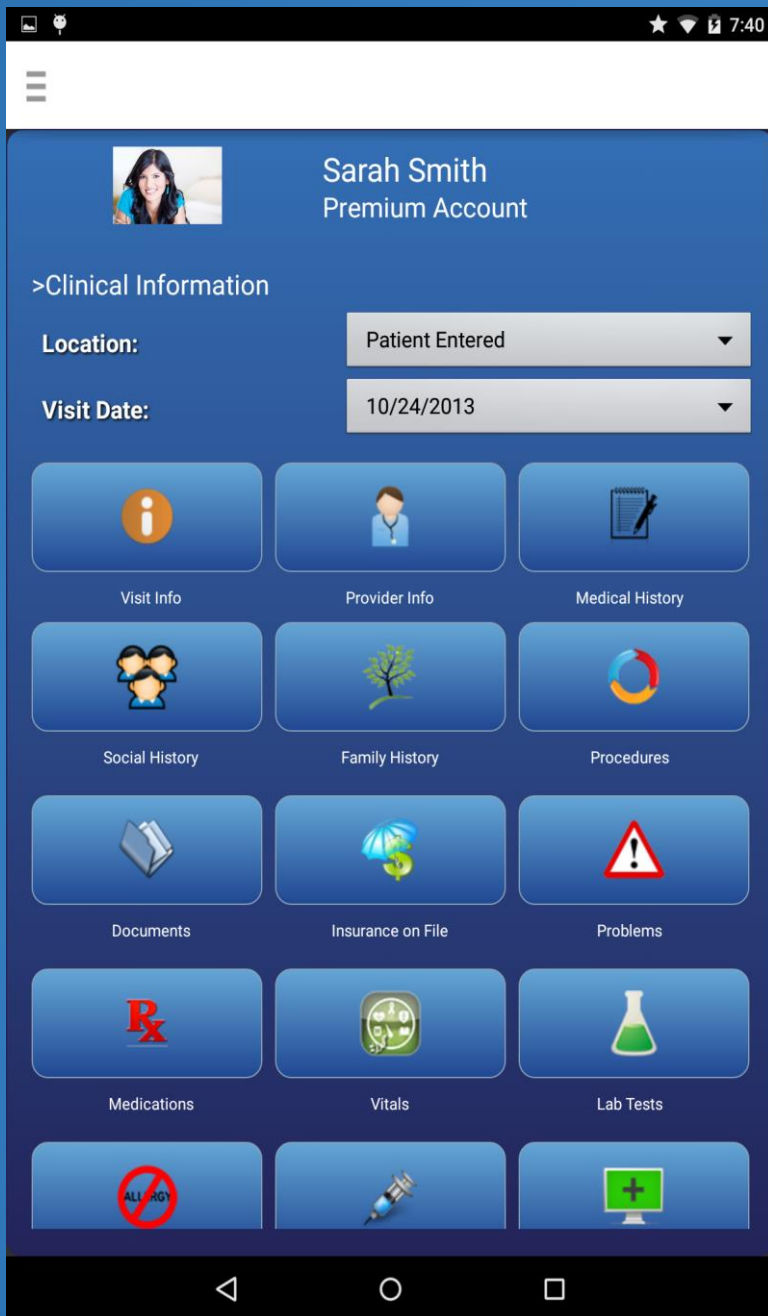

The screenshot displays the ChartZoneMD software interface. The main window is titled 'ChartZoneMD' and includes a menu bar (File, Settings, Security, Help) and a toolbar with icons for Patients, Scheduler, Visits, Tasks, and Reports. The left sidebar shows a list of 'Open Visits' with patient names and dates. The central area is divided into two panes. The left pane, titled 'To begin your search', contains a 'Last Name' field and a 'Visits' list. The right pane, titled 'Step 5: Clinical Data', contains a 'Past Medical History' section with tabs for Procedure, Allergies, Medications, and Vaccinations. It also includes a 'Date of Occurrence' dropdown, a 'Comments' text area, and a 'Categories' section with a 'Select All' button. The bottom of the window features a 'Queue Items (183)' section and a 'My Queue Items (175)' section.

The screenshot displays the ChartZoneMD software interface, specifically the 'Step 4: Patient Locations' window. The main window is titled 'ChartZoneMD' and includes a menu bar (File, Settings, Security, Help) and a toolbar with icons for Patients, Scheduler, Visits, Tasks, and Reports. The left sidebar shows a list of 'Open Visits' with patient names and dates. The central area is divided into two panes. The left pane, titled 'To begin your search', contains a 'Last Name' field and a 'Visits' list. The right pane, titled 'Step 4: Patient Locations', contains a 'Patient Facilities' section with a list of facilities (Healthcare Holdings Group, Orlando Medical Group, Orlando Central, Orlando East) and a 'Patient Intake Visit' section with a list of visit types (Initial Visit, Progress Note, Re-Evaluation, Test visit type, Test visit type 2, HP/Visit Test Type). The bottom of the window features a 'Queue Items (183)' section and a 'My Queue Items (175)' section.
